# Project Status Report

## Big Data Analysis for Football Team Formation

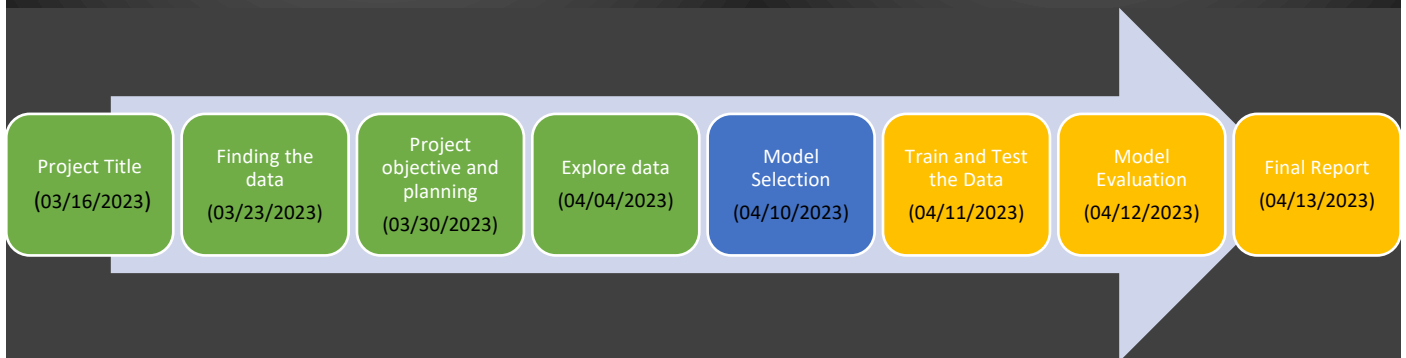

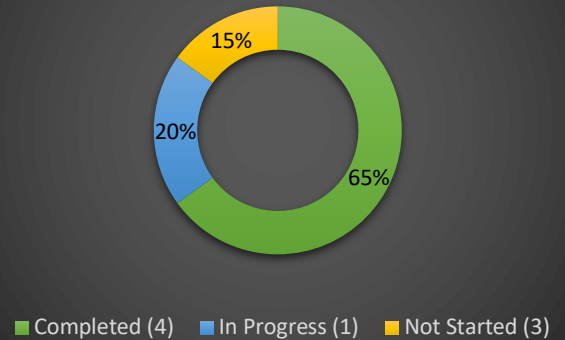

**Project Status:** In Progress (On track)

**Date:** 6<sup>th</sup> April 2023

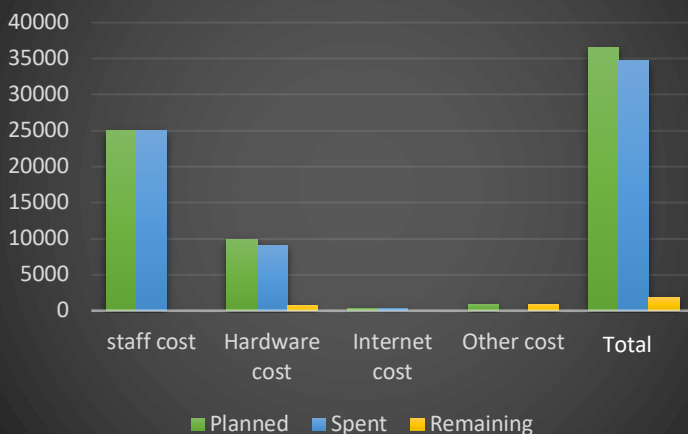

### Workload Status

### Milestone Achieved

### Cost

### Overall Health:

Time	10% ahead of schedule
Tasks	4 task completed
Workload	0 tasks overdue
Progress	65% complete
Cost	5% under Budget

### Summary and Key Highlights:

Finding the relevant data set was challenging and all the listed risk was mitigated.

Most of the statistical values pertinent to the data are found and listed the key features affecting the players rating using correlation technique in python.

Model selection phase is bit challenging and we would work to make our game plan suggestion better.

The project team is on track to complete the project by the expected date on 13<sup>th</sup> April 2023.
